

# Goals Over Track Out!

- 1) Now that your child is in first grade they should know their power school number. They will need to use this number for logging onto Splash Math during math centers, taking AR tests, and buying lunch. When we return from track out I will ask students to write their number for me. If they have it correct they will get a Lanier Loot!
- 2) Help your child to learn how to tie their shoe! They have a chance to be in the "Shoe Tying Club." In order to be initiated into the club they must show me how to tie their shoes. They will receive a certificate and a Lanier Loot! Our goal is for everyone to have joined the club by the end of September.
- 3) Collect Box tops!! Did you know when you collect 25 box tops your child will get to earn lunch in the classroom? Every other Friday students who have brought their 25 box tops will get to bring their lunch and eat it with me in the classroom! If there is only one child then they get to invite a friend. I have a collection sheet on my website to make it easier for collection. You can just tape or glue them on the collection sheet.
- 4) READ, READ, READ!! Take turns reading. Your child can read a page and then you can read a page! Ask questions after about the story.
